Isometric view of a mechanical part. The part features a base plate with a width of 56 and a depth of 35. A vertical plate of width 28 is attached to the base. A circular hole with a diameter of $\phi 20$ is located on the vertical plate. The part has a total height of 49. The base plate has a thickness of 6. The vertical plate has a thickness of 8. The part is shown with a coordinate system $\vec{ON}$ at the bottom right.

Dimensions:

- Base plate width: 56
- Base plate depth: 35
- Base plate thickness: 6
- Vertical plate width: 28
- Vertical plate thickness: 8
- Total height: 49
- Hole diameter: $\phi 20$
- Other dimensions: 17, 18, 10, 24, 15, 28, 13, R21

22

Isometric view of a mechanical part. Dimensions include: overall width 56, overall depth 28, overall height 15, a vertical slot of width 17 and depth 10, a horizontal slot of width 18 and depth 13, a circular hole with diameter $\phi 20$, a curved surface with radius R21, and a small rectangular feature with width 6 and height 8. A north arrow labeled 'N' is shown.
